A CHANCE FOR CLEARER SKIN: JOIN OUR ECZEMA TRIAL!

Help us to bring a new treatment option to Atopic Dermatitis (eczema). This study evaluates the formulation, CHD-FA 4% Cream, for its efficacy, safety and tolerability in patients suffering from mild to moderate Atopic Dermatitis.

There will be 4 - 5 visits at the UCT Lung Institute, where you will be seen by a doctor and dermatologist.

If you, or someone you know of, is interested, please contact us.
